

FIG. 1

FIG. 3

FIG. 4

This technical drawing illustrates a complex mechanical assembly in a cross-sectional view. The central component is a shaft (10) that passes through several layers. At the top, a flange (16) is secured with a bolt/nut assembly (17). Below the flange, a piston rod (14) is connected to a piston (15). A flexible bellows (127) is attached to the piston rod and extends downwards. The bellows consists of two main sections: 127a at the top and 127b below it. The bellows is connected to a housing (25) which contains a cylinder (38) and a piston (37). The piston is connected to a lever arm (26) which pivots on a support (24). Various seals and gaskets are indicated by labels like 130, 131, 135, 136, 137, 140, 141, and 144.
